"Lulu's Garden" Offers Luxury Lip Balms and Designer Gift Sets That Nourish Both the Body and Mind

Lip balm smudge pots, aromatherapy hand balms and designer gift sets are just a few of the delectable creations available at Lulu's Garden. Owner, Lee Bodmer has created a one-of-a-kind lip and hand balm beauty product line that offers wholesome products for members of the whole family. The Lulu's Garden designer line is available both online and in choice boutiques.

For Lee, the inspiration behind her handmade business is close to home. Her mother was diagnosed with dementia and Lee knew that her mother's illness would either destroy her or help her become a successful entrepreneur like her mother had been. Lee's choice was obvious, especially since she had an extensive background in oil blending and aromatherapy. She set to work creating a wholesome lip and hand balm line that nourished the body while also calming the mind through aromatherapy. It wasn't long before her product line was ready and Lee made a splash into the handmade marketplace.

Today, the Lulu's Garden line features a whole range of products for anyone in search of a little tender loving care. Lee's product line is gaining popularity in the handmade marketplace and is fast becoming a trusted brand that families are turning to in favor of commercial brands. The future looks bright for Lulu's Garden Lip Balms, which also won top prize at the 2013 American Package Design Award for the POP display that Lee helped to design.

As Lee continues to build a customer base, new products are currently being developed and will be launched this year. She is interested in further expanding the availability of the Lulu's Garden product line to stores and designer boutiques. For interested buyers and store managers, please use the above contact details to discuss availability with Lee personally. She is also amenable to interview requests and magazine, blog or newspaper features. Hi-Resolution photographs of her products are available by request.
